Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [ ] in titles are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C., or at Government departmental and field printing plants. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

Under provisions of the Printing Act of January 12, 1895, all Government publications, except administrative and confidential (or restricted), are entered in the Monthly Catalog.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, DC, is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (*) preceding the price. Those for sale by the National Technical Information Service are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. Doc. 103, 88th Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with an asterisk (*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address order to Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of $25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Public Documents Department. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

MONTHLY CATALOG MARCH 1971

NOTE.—*Entries appear in this Index under subjects or titles. Bulletins, circulars, etc., having no specific subjects are entered under the issuing office only. Index citations are to entry numbers in the catalog.*

A

Abbreviations:
contractions used by FAA air traffic control, etc., handbook, change, 4225
standard, shown on ASCS information releases, 4176
Abood, Karin A., utility of radiosotope methodology in estuary pollution control studies, evaluation of use of radioisotopes and fluorescent dyes for determining longitudinal coefficient in estuaries, 4252
Abridged index medicus, 5621
Abstracts, *see* names of departments, etc., issuing abstracts—*also* subjects.
Acceleration, accelerated flow, boundary layer measurements with and without heat transfer, 5529
Accelerators, linear plasma accelerator facility, design of 20-megawatt, 5516
Accessions index, lists, etc., *see* Library of Congress.
Accidents:
in case of accident, call the computer, planning for prevention, etc., 5299
LMFBR liquid metal fast breeder reactor, 1000 MWe, safety analysis studies, accident analysis and safety system design study, 4249
see also Aircraft accidents—Motor vehicle accidents—Safety of life.
Accounting, *see* Accounts and accounting.
Accounting machines, current industrial report, 4316
Accounts and accounting:
accounting factors, effect on economics of synthetic pipeline gas, 4347
better cost accounting systems would improve Defense Department maintenance activities, GAO report, 5242
enlisted personnel reporting system, NGB pamphlet, 5570
Federal agency accounting, status, progress, and problems, GAO report, 5243
Acetates, *see* names of acetates.
Acid mine drainage, *see* Mine drainage.
Acids, mine acid, prevent formation in active deep mine, mining coal in oxygen free atmosphere, demonstration of new mining technique, 5887
ACIR, *see* Advisory Commission on Intergovernmental Relations.
Ackley, Richard M., statistics of farmer cooperatives, 5103
Acoustics, *see* Noise—Sound.
Acreage allotments, *see* names of products.
Actions at law, *see* Appeals.
Activated carbon, *see* Carbon.
Acts of Congress, *see* Law.
Adams, Gener W., species densities in lower thermosphere compatible with U.S. standard atmosphere, 5632
Adams, James J., approach to determination of aircraft handling qualities by using pilot transfer functions, 5513
Adams County, Miss., soil survey report, 5748
Addresses, lectures, etc.:

Air, *see* Air pollution.
Air blasts, close-in airblast from Buggy 1 event, 4254
Air carriers:
air transport services, agreement with Italy, 5782
airline tickets, show total cost requirement, law, 4552
Air conditioning, equipment, current industrial reports, 4304
Air crews, *see* Flight crews.
Air ducts, *see* Pipe and pipe fittings.
Air Force:
certain retired officers, claims, 4405, 4686
design manual, 4211
effectiveness of experimental training materials for low ability airmen, 4205
find yourself the skill of a lifetime, as member, 4217
manpower determinants, change, 4209
personnel aptitude composites and training criteria compared in matter of cultural subgroup differences, discussion of relationships arising from 2 sources of data, 4207
personnel, estimation of validity in absence of criterion, 4208
Air Force Department:
Air Force manuals, 4209–13
Air Force pamphlets, 4214–15
procurement law, 4212
Air Force Human Resources Laboratory, technical reports, 4205–8
Air Force installations, *see* Installations (military).
Air Force Medical Service, Central Nursing Supply Service, organization, operating and storage procedures, etc., Air Force manual, 4213

Air inlets (aircraft):
supersonic inlet using bypass bleed, numerical study of control of dynamic properties, 5521
Air lines, *see* Air carriers.
Air pilots, *see* Aviators.
Air pollution:
air quality control region, Federal facilities—
Cincinnati interstate, 4220
Dayton, Ohio, 4221
Kansas City, Mo., 4222
Milwaukee, Wis., 4223
air quality criteria for nitrogen oxides, 4218
summary and conclusions, 4224
Clean air act, amend, law, 4477
control, activities in foreign countries, profile study, 5544
hydrocarbons and air pollution, annotated bibliography, 5543
limitation of contact sulfuric acid plant emissions, guidelines, 4219
nuclear energy underground uses, study, hearings, 4777
prevention and control, amend act, law, 4477
Air Pollution Control Office:
publication AP series, 4218
publication APTD series, 4219
Air quality act, *see* Air pollution.
Air raids, bombing operations and prison-of-war rescue mission in North Vietnam, hearing, 4757
see also Warning systems.
Air traffic:
control—
contractions used by FAA, etc., handbook, change, 4225
en route, handbook, 4226–27
terminal handbook, 4229
use of computers, 5112
system shakedown tests (C30/60N) NAS en route A model 1 functional package, 5111
Air transportation, *see* Air carriers.
Air Weather Service, technical reports, 4216
Aircraft:
civil, airport safety inspection program needed to improve flight safety, GAO report, 5225
effects of motion cues and motion scaling on 1- and 2-axis compensatory control tasks, 5515
export airworthiness approval procedures, 5105
exported, partial duty exemption, law, 4564
handling qualities, approach to determination by using pilot transfer functions, 5513
jet, sound absorption of materials at high intensities, techniques for evaluting, 5480
jet transport, economic analysis on use of gelled fuels, 4230
leased, application of investment credit recapture rule for tax purposes—
law, 4548
report, 4711
long-bodied visual approach slope indicator system for landging, 5812
opportunity to reduce costs and improve aircraft through prompt processing of engineering change proposals, GAO report, 5240
turbojet-ramjet propulsion system for all-body hypersonic aircraft, 5502
see also Engines (aircraft)—Shells (structural) *also* names of aircraft parts.
Aircraft accidents, investigations, aviation medicine participation, FAA handbook, 5110
